

Dear Parents and Carers,

This is our home learning topic grid for this half term. Please help your child choose a home learning task from one of the boxes. I hope your child has fun, takes pride in how they present each task and enjoys their home learning! Photographs showing practical task are always welcome. Please send these to year1@newtonlongville.bucks.sch.uk. There is an extension for each task if your child would like a challenge.

Don't forget to read 5 times per week and aim for 10 minutes on Numbots 😊

Year 1 Home Learning Grid: Why do most bears not live near the equator? (Autumn 2)

<u>Geography</u> Can you identify the 4 seasons? You could draw a picture of or write about each season. Extension – Can you research what the 4 seasons are like in the United Kingdom? 	<u>Maths</u> Can you build a bear using different 2D shapes? Extension – Can you label the different shapes you have used and identify how many sides and vertices each shape has? 	<u>English</u> Create, draw or paint a picture of a cool or warm place (such as a polar habitat or a desert habitat).
